MARKSMANSHIP

- The Firearms Academy of Seattle, Inc/Handgun Safety Seminar/Principles of Handgun Marksmanship, WA State Laws for use of deadly force.

WORLD RECORD SPEED--FAST DRAW

My record of 1 1/200TH of one second was witnessed at the Bob Munden School of Fast Draw in Montana.

*In the witness of Bob Munden and those men attending the fast draw school of Bob Munden in Montana, Bob stopped the competition and verbally reinforced to all attending that Norman Claassen obtained a World Record Speed of 1 1/200th of One Second while accurately hitting the balloon and being timed on a calibrated 1 second clock measuring the speed of the shooter Norman Claassen
This record speed was not posted in any World Record book but was noted by Bob Munden as “the fattest speed humanly possible”!*

Some samples of firearms training

For beginner, intermediate, and advanced shooters

- Custom one on one and group lessons.
- Training for basic handgun safety and handling.

* Provided NRA (National Rifle Association) guidelines and training material). June, 2011

* Followed all scientific protocols unique to the Polar Cap Expeditions.

* Emphasis on defusing situation with Polar Bear to avoid a shooting incident.

Going to Iraq

A friend of mine referred me to a woman who worked in a federal agency searched and called all her local gun clubs, police, sheriff's departments and firearm training facilities searching for training of three firearms.

Berretta pistol, 9mm

AK 47

Carbine

The marines instructed private contractors to be familiar with all three firearms as they would be living in the dangerous green zone.

The marines did not care if a certification was obtained. Just be able to operate and understand these firearms for serious self protection if need be.

She could not find anybody to train in all three.

I trained her in the use of all three, she shot very well and she took apart and cleaned all three with total confidence.

After she came back she thanked me so much for truly understanding the firearms and that she had a sense and feeling of safety while living and working in such a dangerous environment.

I am thank full to be able to help people learn the tools for the God given right of self preservation.
